- ' Spacer from aluminum
- ' assembled on supply

Application

With our suspension device you get the possibility to hang on and take off your Speed Display or Counter in a very easy way, especially, if the location should often be changed :

- ' The mounting device is premounted at the foot of the mast and can be shifted then into the desired height.
- ' After tightening the thumbscrews the speed display or the Counter hangs firmly and surely.
- ' The Speed Display or the Counter can be hung in and out comfortably by simple round head screws.
- ' Lockable, the Display or the Counter are protected against unauthorized removing.
