

MoMa

Mobile universal stickable mast

- **Universal mobile mast for different kinds of usage**
- **3 part mast, plugged together till 2,50m**
- **Profile 60 mm Ø**
- **Galvanized steel pipe**
- **For secured and free standing with passenger car**
- **Detachable for transport**

Applications

The stickable universal mobile mast supports optimally mobile concepts. The MOMA is very easily detachable and still very stable. MOMA is useful, when you want to change the location of the Speed Display more frequently or if the display is only sometimes in use.

Characteristic

- 7 part in the total structure
- Variable mountable
- Stability by variable additional supports. They adapt to the wind pressure
- To assemble and disassemble only with suitable tools
